KILLEARN ERIC 3rd—Herd Sire
He sells as Lot 1

A proven bull of top breeding. Sound in feet and legs and a sure breeder. Over 30 head in this sale are sired by him.

ANNOUNCEMENT

The Sander herd of Talcott Scotch Shorthorns has developed to near one hundred head and is now able to put on this sale of about one-half the herd. With few Shorthorn sales being held breeders and enthusiasts are provided with an opportunity to renew acquaintances, make new friends, and purchase their requirements. The herd is noted for size and ruggedness through the good bulls that they have sold each year at both Saskatoon and Battleford Bull Sales. The cattle are reared under very ordinary farm conditions and they do well wherever they go. This size and fleshing ability is no accident—the first two bulls used in the herd were sons of KILLEARN MONARCH 39th and KILLEARN MONARCH 100th from the biggest line of cattle produced by Mr. Gallinger. They were followed by an S. G. Bennett bull from Ontario—SCOTSDALE DEFENDER by SCOTSDALE ASPIRATION and out of an imported cow, GLASTULICH ROSEWOOD MOLLY (imp). Then came the Herd Sire that sells as Lot 1 and the bull shown as Reference Sire. This has been a sound breeding program and these are good Shorthorns. The cattle business is heading for another golden era. These breeding females are a choice investment.

This is a bull that Sanders bought privately from Mr. Gallinger last year and a bull that would be very popular with all kinds of cattlemen today. He has tremendous size for age, is a burly bull and has great depth of fleshing. He is what would be termed a "good roan" — the color that both breeders and commercial men are looking for now. His first calves are selling with their mothers and they sure look good. The bred females all carry his service.
